BUCKDEN DENTAL SPRING 2020

NEWSLETTER

It's Our First Year Anniversary!

Time flies when you're having fun, right? That famous saying couldn't be truer for our team!

We just hit our one-year anniversary since we re-branded as Buckden Dental Clinic and it has been nothing short of amazing.

It is our privilege to provide the latest preventative dental care to our local community with exceptional customer service and patient care.

It has been a year full of ups as we've refurbished and expanded to be able to offer our unique approach to patient care to more clients. Helping our community maintain good oral health is why we come into the work each day.

Here is a peek into what the last year has brought us:

* We helped 1,799.50 patients with their dental health within the last year
* Our practice grew by 372 new patients
* We were excited about getting our new logo
* We welcomed Dr Simona, our lovely therapist Loreana, and trainee dental nurse Amber to our office as well as welcoming back amazing dental nurse Kelly
* We installed a brand new surgery!
* We've expanded our services with our iTero scanning (no more yucky impressions!) and dental lasers for the most up-to-date treatment techniques

We want to say THANK YOU to all of our amazing patients, friends and family for your continued support over the last year. We look forward to seeing you again soon.

Testimonials

I had the Invisilign braces for 2 years. I decided to have the braces as it has bothered me for some time that my teeth were quite far apart at the front and stuck out quite a lot.

When I spoke to Georgina about this she notified me of a new brace coming out called Invisilign which was a completely transparent brace that was changed every 2 weeks.

I was particularly drawn to these braces due to their transparent nature

and almost straight away noticed a change in my teeth's appearance. This immediate change led to an almost instant increase in my self-confidence which made me a lot happier.

Over the past few years my confidence has grown drastically and I have

noticed a substantial change in my appearance, with the gaps between

my teeth closing dramatically as well as the front teeth being pushed back more and decreasing in length.

Many people who I know have complimented me on the changes and

cannot believe how much my appearance has changed in the last 2 years. People who I have not seen since school are amazed at the changes and this only makes me more confident and happy that I made the right decision in choosing the Invisiglin braces.

I am also now into a routine of cleaning my teeth after every time I eat,

which I will continue after the treatment has finished. Having to clean my teeth so often has led to many hilarious moments where work colleagues have come into the toilets to find me brushing my teeth.

I would strongly recommend the Invisalign treatment to anyone who is thinking about having their teeth straightened.

Mathew Hubbard

We'll give you something to smile about!

Are your teeth slightly crooked or misaligned? So you have unwanted gaps between your teeth? Fixed wire braces have been used as the traditional method to realign teeth.

With Invisalign, the clear invisible braces are removable and changed every two weeks. Each aligner is individually manufactured with exact calculations to gradually shift your teeth into place.

The Invisalign system is custom-made for your teeth, planned by your dentist so you know you'll end up with a smile that truly fits.

Invisalign Lowest Price Ever at just £2999!

Please note this is a limited offer only for the first 10 patients so give us a call today to book your free assessment!
