Buckden Dental Summer 2021

Re-Opening of Jolique Facial Rejuvenation Clinic

We're delighted to have re-opened our Jolique clinic last month after a very, very long lockdown!

At Jolique Facial Rejuvenation Clinic we aim to provide comprehensive, non surgical solutions for those who seek to improve and maintain the appearance of their skin.

Our individually tailored treatments include wrinkle reducing injections, dermal fillers, lip enhancement and skin boosters.

All treatments are performed by one of our dentists with specialist knowledge and training.

The clinic was first established by Dr Georgina O'Callaghan (BDS ucc).

"I have been a dentist for over 20 years and have developed a special interests in facial rejuvenation." Says Georgina. " At Jolique Facial Rejuvenation Clinic we only use treatments that have been proven to be safe and effective. When introducing products to the clinic, we apply the same criteria as we would for general dentistry."

All treatment is conducted in the clinical setting with strict PPE and infection control protocols.

To find out more go to www.jolique.co.uk.

STAFF NEWS

Composite Bonding with Simona

"This lovely gentleman attended our practice looking for help to improve his smile aesthetically.....

After a thorough examination and treatment planning I started our journey with two weeks of teeth whitening to improve the colour of his teeth.

After whitening I replaced the old metal and defective fillings with tooth-coloured composite material.

Following that I designed a new smile for my patients upper arch and proceeded with composite veneers for his front six teeth. This is minimally invasive treatment which did not require any removal of tooth structure"

Dr Simona Kaur

National Smile Month is the UK's largest and longest-running campaign to promote good oral health. This runs from 17th May – 17th June 2021.

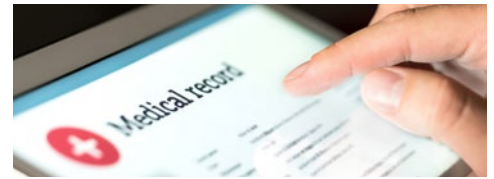

We are supporting National Smile Month to highlight three key messages to our patients, all of which go a long way in helping us develop and maintain a healthy mouth. They are:

- Brush your teeth last thing at night and on at least one other occasion with a fluoride toothpaste.
- Cut down on how often you have sugary foods and drinks.
- Visit your dentist regularly, as often as they recommend.

The aim of National Smile Month is to ultimately improve the UK's oral health. Organised by oral health charity, the Oral Health Foundation, the campaign hopes to raise awareness of important health issues, and make a positive difference to the oral health of millions.

During the campaign we have a whole whole of virtual activities for our patients to join in. Follow us on social media on Facebook, Twitter and Instagram to keep up to date with all our latest news and offers.

Paperless Forms!

A lot of you have already been making use of the new portal and updating your personal details and medical history online prior to your appointments.

This will minimise the contact you have at the practice with the clinic pads or paper forms.

When you get your appointment reminder text message or email, there will now be a link on there to access the portal at the end of the email.

You can also use the link to 'check-in' when arriving for your appointments.

PRACTICE HOURS

Monday	9.00am	8.00pm
Tuesday	9.00am	5.00pm
Wednesday	9.00am	5.00pm
Thursday	9.00am	5.00pm
Friday	9.00am	3.20pm
Saturday	9.00am	1.00pm
Sunday	Closed
